

Biotinylated Human FGFR1 alpha (IIIc) Protein

Cat. No. FGF-HM4RAB

Description	
Source	Recombinant Biotinylated Human FGFR1 alpha (IIIc) Protein is expressed from HEK293 with His tag and Avi tag at the C-Terminus. It contains Arg22-Glu374.
Accession	P11362-7
Molecular Weight	The protein has a predicted MW of 42 kDa. Due to glycosylation, the protein migrates to 68-80 kDa based on Tris-BisPAGE result.
Endotoxin	Less than 1EU per µg by the LAL method.
Purity	> 95% as determined by Bis-Tris PAGE > 95% as determined by HPLC

Formulation and Storage	
Formulation	Lyophilized from 0.22µm filtered solution in PBS (pH 7.4). Normally 8% trehalose is added as protectant before lyophilization.
Reconstitution	Dissolve the lyophilized protein in distilled water. Please refer to the Certificate of Analysis for detailed instructions.
Storage	-20 to -80°C for 12 months as supplied from date of receipt. -80°C for 3 months after reconstitution. Recommend to aliquot the protein into smaller quantities for optimal storage. Please minimize freeze-thaw cycles.

Background	
	Fibroblast growth factors (FGFs) comprise a family of at least eighteen structurally related proteins that are involved in a multitude of physiological and pathological cellular processes, including cell growth, differentiation, angiogenesis, wound healing and tumorigenesis. The biological activities of the FGFs are mediated by a family of type I transmembrane tyrosine kinases which undergo dimerization and autophosphorylation after ligand binding. FGFR1 is tyrosine-protein kinase that acts as cell-surface receptor for fibroblast growth factors and plays an essential role in the regulation of embryonic development, cell proliferation, differentiation and migration. Required for normal mesoderm patterning and correct axial organization during embryonic development, normal skeletogenesis and normal development of the gonadotropin-releasing hormone (GnRH) neuronal system.

Assay Data

Bis-Tris PAGE

Biotinylated Human FGFR1 alpha (IIIc) on Bis-Tris PAGE under reduced condition. The purity is greater than 95%.

SEC-HPLC

Biotinylated Human FGFR1 alpha (IIIc) Protein

Cat. No. FGF-HM4RAB

Assay Data

The purity of Biotinylated Human FGFR1 alpha (IIIc) is greater than 95% as determined by SEC-HPLC.

ELISA Data

Biotinylated Human FGFR1 alpha (IIIc), His Tag ELISA

0.1µg Biotinylated Human FGFR1 alpha (IIIc), His Tag Per Well

Immobilized Biotinylated Human FGFR1 alpha (IIIc), His Tag at 1µg/ml (100µl/well) on the streptavidin precoated plate (5µg/ml). Dose response curve for Anti-FGFR1 Antibody, hFc Tag with the EC50 of 9.5ng/ml determined by ELISA.
